

I STILL LOVE YOU

© SOCAN Glenn Zaretski

1. When you and I were younger, it seems like yesterday.
We'd always be together, I couldn't stay away.
Those never ending evenings, when the music wouldn't stop.
We'd dance until tomorrow, we were so much in love.

CHORUS: And I still love you
Though we're much older now.
Yes I still love you
I guess I'll never stop.

2. All our sons and daughters married, though they said it's out of style.
They all must have been lucky to be happy for awhile.
I see your smile in the young ones, it brightens up their face
And something in their movements was mine in younger days.

CHORUS: And I still love you
Though we're much older now.
Yes I still love you
I guess I'll never stop.

3. Now you and I grow older, but you age so graciously
Your hair is not so dark now, but that doesn't bother me.
And when I start reflecting, life hasn't passed us by.
We both shared from each other and never had to lie.

CHORUS: And I still love you
Though we're much older now.
Yes I still love you
I guess I'll never stop.
